1 FAI AUTHORITY

The competition will be conducted under the authority granted by the FAI, according to the regulations of the Sporting Code of the FAI, General Section, and Section 5 as approved by the ISC and validated by the FAI, and these rules. All participants accept these rules and the FAI regulations as binding by registering in the competition.

2 DEFINITIONS OF WORDS AND PHRASES USED IN THESE RULES

2.1 BODY

Consists of the entire competitor and their equipment.

2.2 DIVE POOL

Consists of the Random Formations and Block Sequences depicted in the Annexes to these rules.

2.3 FORMATION

Consists of competitors linked by grips. For VFS with each competitor in the correct orientation.

2.4 GRIP

Consists of stationary contact between any part of the palm side of the hand and/or fingers of one jumper, and an arm leg or foot of another jumper as shown in 7.2. For VFS a foot grip extends to (and includes) the ankle.

2.5 GRIP LINE

This is the line linking the torsos of two competitors via their arms or legs and feet and the grip that joins them.

- 2.5.1 For VFS Clarification regarding random O) – There is an imaginary vertical plane passing through the handgrips, with outside competitors having hand grips on one side of the vertical plane and the competitor taking the leg grip on the other side of the vertical plane. No grip line may cross the vertical plane within the formation.

2.6 INFRINGEMENT

Is one of the following:

1. An incorrect or incomplete formation which is followed within working time by either
 - a total separation or,
 - an inter, whether correct or not.
2. A correctly completed formation preceded by an incorrect inter or incorrect total separation.

3. A formation, inter, or total separation not clearly presented.

2.7 INTER

Is an intermediate requirement within a block sequence which must be performed as depicted in the dive pools.

2.8 JUDGEMENT CALL

An assessment by the judges of a formation, infringement or omission that is not unanimous.

2.9 NV

Formations, inters, or total separations not visible on screen due to meteorological conditions (such as rain, clouds, sun etc), or factors relating to the Videographer's video equipment that cannot be controlled. Solar interference resulting in a formation or inter not being visible will constitute an NV.

2.10 OMISSION

Is one of the following:

1. A formation or inter missing from the drawn sequence.
2. No clear intent to build the correct formation or inter is seen and another formation or inter is presented and there is an advantage to the team resulting from the substitution.
3. If both the inter and the second formation in a block sequence are omitted, this will be considered as only one omission.

2.11 ROUND

A prescribed competition performance as described in these rules. A round has been completed when it has been performed by all participants in the relevant competition and been validly scored.

2.12 SCORING FORMATION

Is a formation which is correctly completed and clearly presented either as a random formation or within a block sequence as depicted in the dive pool, and which, apart from the first formation after exit, must be preceded by a correctly completed and clearly presented total separation or inter, as appropriate.

2.13 SEQUENCE

Is a series of random formations and block sequences which are designated to be performed on a jump.

2.14 SUBGROUP

Is the individual jumper, or linked jumpers, required to complete a designated manoeuvre during the inter of a block sequence.

2.15 A SUBGROUP'S CENTERPOINT

Is one of the following:

1. The defined grip or the geometric centre of the defined grips within a subgroup of linked jumpers.
2. The geometric centre of an individual's torso.

2.16 TOTAL SEPARATION

Is when all competitors show at one point in time they have released all their grips and no part of their arms have contact with another body.

2.17 VFS ORIENTATION:

- 2.17.1 “The Vertical”: An imaginary line running parallel to the relative wind (see diagram)
- 2.17.2 “The Horizontal”: An imaginary line running perpendicular to the relative wind (see diagram)
- 2.17.3 “The flyer’s Line”: An imaginary, straight line of infinite length, roughly following the flyer’s spine, from the center of the flyer’s hips through the center of the flyer’s head and beyond.
- 2.17.4 “The Hourglass”: The acceptable range of deviation from The Vertical that a flyer’s Line may take when meeting an orientation requirement (head up or head down). A flyer’s orientation shall be judged with The Vertical and The Horizontal intersecting at the flyer’s hips.
- 2.17.5 “Head up”: The flyer’s Line must fall within, and remain within, the upper portion of the Hourglass.
- 2.17.6 “Head down”: The flyer’s Line must fall within, and remain within, the lower portion of the Hourglass.
- 2.17.7 “Bellyflying” or “Belly to Earth” orientation requires that the competitor’s torso is in a horizontal (prone) position, with the front of the torso toward the earth.
 (“Bellyflying” is not currently used in VFS formations)
- 2.17.8 “Backflying” orientation requires that the competitor’s torso is in a horizontal (prone) position, with the back of the torso toward the earth.
 (“Backflying” is not currently used in VFS formations).

2.18 WORKING TIME

Is the period of time during which teams are scored on a jump which starts the first moment any competitor (other than the Videographer) separates from the aircraft, as determined by the Judges, and terminates a number of seconds later as specified in 3.1.

2.19 ZENITH

Point of the celestial sphere located vertically above the head of an observer.

3 THE SUB-DISCIPLINE COMPETITIONS

3.1 SUB-DISCIPLINE COMPETITION DESCRIPTIONS

The discipline will be comprised of the following sub-discipline competitions:

- 3.1.1 4-Way FS Competitions: Exit altitude is 3200 meters / 10500 feet AGL. Working Time is 35 seconds.

7 DEFINITION OF SYMBOLS

7.1 CODING IN THE DIVE POOL ANNEXES is as follows:

7.1.1

Indicates direction of turn by the subgroup

7.1.2

Indicates turn by the subgroup in either direction

7.1.3

Indicates turns by all subgroups

7.1.4 a)

Indicates clarification of intent VFS

7.1.4 b)

Indicates clarification of intent FS

7.1.5

Indicates change of vertical orientation VFS

7.2 VISUALISATION FOR GRIP POSITIONS, ref 2.2
